

Semi-Automatic Film Sealing Machine

«VM»

VM 65 MAT

VM 87 M R

Typical installations:

Proved L-sealer for wrapping different products such like automotive parts, books, printed matters, food, mattresses, textiles, clothes etc. Using centre-folded film this machine will wrap your products fully wrapped. In combination with a shrinking tunnel of type „VT“ your products can be wrapped in a clean and sales promoting way.

Further options:

- AT: Automatic indexing conveyor belt
- P: Pneumatically driven sealing jaw
- ROX: Electronic control of sealing-wire temperature
- R: Loading table and/or sealing table with integrated rollers for easier product infeed and handling
- EH: Sealing table adjustable in height by electromotor
- FG: Blower for loading table to open film track

Technical dates:

Machine Type	Sealing frame	Space
VM – 44 M	400 x 400 mm	approx 1,2x 0,6 m
VM – 46 M	600 x 400 mm	approx 1,5x 0,6 m
VM – 65 M	600 x 500 mm	approx 1,5x 0,7 m
VM – 66 M	600 x 600 mm	approx 1,5x 0,8 m
VM – 76 M	700 x 600 mm	approx 1,7x 0,8 m
VM – 87 M	800 x 700 mm	approx 1,9x 1,0 m
VM – 108 M	1000 x 800 mm	approx 2,3x 1,2 m
VM – 128 M	1200 x 800 mm	approx 2,5x 1,2 m
VM – 138 M	1300 x 800 mm	approx 2,7x 1,2 m
VM – 1512 M	1500 x 1200 mm	approx 3,2x 1,6 m
VM – 2212 M	2200 x 1200 mm	approx 4,5x 1,6 m
VM –	Your size!	

Of course the machine can be designed to your demand and for your purposes!
(Subject to change)

VM – 138 MAT R

Standard equipments:

- Machine standing on lockable castors
- Reliable magnetic sealing jaw closing system
- Sealing system impulse controlled
- Infinitely adjustable sealing and cooling time
- Cut sealing system for Polyolefin-shrink film or T-shape sealing system for PE films up to 100 µm
- Sealing table adjustable in height to match different tall packages
- Film twin holder for 2 film widths
- Electric power 400 V, optionally 230 V
