

## Large L-Sealer with Shrinking-Tunnel

# «VM-1512 with VT-212»

Air-cushion plate for easy handling of your product (optionally)

### Equipment and modification:

- Product loading table with air-cushion plate for easy product infeed into the folded film (ideal for unstable products such like film sheets, textile sheets, paper sheets etc.)
- Loading table and film unroll device for two reels will be adjusted together to pack smaller and larger sizes
- Sealing table in the sealing station with an integrated roller conveyor, optionally with indexing conveyor belt
- Electronic control of sealing wire's temperature
- Electronic control of shrinking tunnel's temperature
- Shrinking tunnel with 2 m long extension of a roller conveyor
- Automatic lubrication of tunnel conveyor (optionally)

### Technical Dates:

Size of sealing frame:	1500 x 1200 mm
Max. size of product:	1400 x 1000 x 150 mm (other sizes of L-sealer and shrinking tunnel are also available to match your demands; e.g. L-sealer sizes up to 2200 x 1200 mm sealing-frame size)
Min. size of product:	200 x 100 x 50 mm
Tunnel passage in width:	1200 mm
Tunnel passage in height:	200 mm
Heating capacity:	36 kW
